
Production pruning - US Steel Serbia working at full capacity

Sunday, 30 Aug, 2009

Blic reported that as of September 1st 2009, the US Steel Serbia returns into regime of full working week as confirmed by Mr Matthew Perkins its GD.

As per report, after 6 months of 4 day working week the company is starting to work with full capacities.

According to unofficial information the last month was the first in this year that the company worked with profit.
