## Anhui Anliang Steel Market Starts Construction

*Tuesday, 30 Jun, 2009*

Anhui Daily reported that Anliang steel market has lately started construction in Longtang industry zone Hefei city of Anhui province which will become a composite steel market with the largest scale and most completed varieties, function and transportation condition in the province.

The newly start steel market, located in the Longtang entry of the high speed road, takes a land of 500 mus, aiming to provide supporting service for steel processing industry. As predicted, the project is likely to finish the construction to start production by the end of year with the first-stage investment of CNY 0.26 billion.
