
Track steel prices in Middle East Asia

Sunday, 05 Jul, 2009

www.steelprices-middleeast.com is a new portal that provides domestic pricing information for benchmark steel products in each category at select location in Middle East on a regular basis 5 days a week.

In addition, FOB levels for commonly exported steel products from major exporting nation Ukraine, Russia, Turkey and China are also available on weekly basis to give international trends.

This would assist persons, including steel makers, traders, users and others, who are connected with industry in some way to asses the steel pricing trends and utilize in their day to day working to take considered decisions.

Benchmark products at select locations cover the entire basket of garden variety of steel products including input material for steel making and processing. The products being monitored include, rebars, wire rods, W section, angles, channels, IPE, Structural, HEA, plates 2x6, plates 3x12, Sheets HRC, HDG and CRS. The locations covered are Abu Dhabi, Amman, Bahrain, Dubai, Jeddah, Kuwait and Qatar. T

All these features are accessible only to registered user who is provided with a login id and password after payment is received. To know more about the service, please logon to the web site and click on “Features”, “Subscription” and if you like the service on “Registration”.
