
Tameer Silver Tower reaches 26th floor

Thursday, 01 Oct, 2009

Trade Arabia reported that construction of Tameer's exclusive 31 storeys Silver Tower located in Dubai's prestigious Business Bay is progressing well with the 22nd typical floor of the superstructure getting completed recently.

According to company officials, the firm is expected to deliver the completed project in 2010. The development is advancing well and construction passed the 60% mark some time ago.

Sources in Tameer confirmed that the slab for the 26th floor has been completed and the core wall has reached the 28th floor.

A senior official said that Tameer is looking forward to handing over the completed units to owners and investors. At a height of 148 meters, the tower with its silver aluminum facade and ultra smart glass architecture, Tameer's Silver Tower is set to become one of Dubai's leading landmarks. Once completed, the building will comprise 260 offices of varying sizes all characterized by the highest standards of design and construction.

He said that in addition to offering premium office space, Silver Tower will also be home to a fully equipped health club, 748 private parking spaces, retail and commercial outlets, a cafeteria and more, spread across a total area of around 700,000 square feet.
