
CSC to keep export price for HRC and CRC unchanged

Saturday, 03 Oct, 2009

It is reported that China Steel Corporation intends to keep its price unchanged for November and December on steel hot rolled and cold rolled product, but raise its price for other steel products, such as hot dip galvanized steel, electro galvanized steel and steel by about USD 20 to USD 40 per tonne.

Also, the company will offer the quotation according to the different regions. It's said that CSC will keep price flat for China's customers, but raise prices a little to Southeastern Asia and Japan.
