
Extract Resources appoints Mr Norman as CEO of Swakop Uranium

Monday, 19 Oct, 2009

Extract Resources announced that Mr Norman Green has been appointed as Chief Executive Officer of its wholly owned subsidiary Swakop Uranium in Namibia.

Mr Green is a graduate of the University of the Witwatersrand and is a Professional Engineer. He has considerable experience in Southern Africa where he has successfully led projects and managed the process for the commissioning of a number of mines including the Skorpion Zinc mine and refinery project for Anglo American Base Metals in Namibia; he has also worked with Impala Platinum Limited, Assmang Limited and the Hillside Aluminium Project for Gencor, now part of BHP Billiton. Mr Green will reside in Namibia his primary role is to build a Namibian team and with that team develop the Rossing South deposit from a world class discovery into a world class mine, capable of producing at least 15 million pounds per annum of uranium.

Mr Steve Galloway chairman of Extract said that “Mr Norman makes a welcome return to Namibia as he takes the helm at Swakop Uranium and we are delighted to have found a CEO of this caliber. I know that he relishes the task ahead and his experience demonstrates that he is extremely capable of building the Husab mine at Rossing South. As a company, we are dedicated to making a significant contribution, not only to the world supply of uranium but also to the Namibian economy and people
