
China Shenhua and Dow lay foundation stone for cooperation

Monday, 09 Nov, 2009

It is reported that on November 5th 2009 China coal giant Shenhua Group and Dow a world class chemical group launch the foundation stone laying ceremony in Yulin, Shaanxi province marking the entry of a new phase of their cooperation on recyclable coal economy.

Participated by Shenhua Group, Dow and Yulin area, the project is the world's largest coal chemical project of its kind. Sources said that they had chosen Yulin chemical industry zone as their site of the project. Now they are working on the 30 plus documents for the governments to approve.
