## **Tangshan Fengnan launches CR sheet project**

*Wednesday, 11 Nov, 2009*

It is reported that Tangshan Fengnan CR Galvanized Company has launched its 1,450 mm cold rolled CR sheet project that can produce 1.2 million tonnes of cold rolled coil, hot dip galvanized coil and cold hardening coil per year.

As per report, the CNY 3 billion project contracted by Cisdia contains a pickling rolling line and a galvanized line with a Carousel reeling machine as its core equipment, along with other facilities such as fly-cutting shear, inlet hydraulic shear, pinch rollers, turning rollers, belt wrapper, outlet coil stripping car, outlet walking beam conveyer as well as uncoiler and coil stripping cars at the inspection section.
