
Severstal Ukraine renews cooperation with Interpipe

Thursday, 24 Sep, 2009

It is reported that the Russian steel producer Severstal has announced that its subsidiary Severstal Ukraine, the key activity of which is selling zinc coated, polymer coated, hot rolled and cold rolled flats and profiled iron in the Ukrainian market, has renewed its cooperation with Interpipe Scientific and Industrial Production Group the Ukrainian holding company specialized in the production and supply of pipe products.

Mr Igor Gutorov director of Severstal said in July to August this year Severstal Ukraine delivered to Interpipe about 1,500 tonnes of rolled products made from low alloy steel grades products which are not manufactured in Ukraine and is to continue its deliveries in the coming months.

In the H1 of 2009, Severstal Ukraine revenue amounted to USD 4.9 million. The biggest share of its deliveries consisted of steel products for the construction sector.
