## **Suzlon US bags 10 wind turbine orders**

*Tuesday, 17 Nov, 2009*

Suzlon Energy said its US based arm Suzlon Wind Energy Corporation has received order for the supply of 10 wind turbines.

Suzlon in a filing to the Bombay Stock Exchange said that a step down wholly owned subsidiary of the company has bagged an order to supply 10 Suzlon S88 2.1 MW wind turbines that would generate 21 MW of energy for the Grant County Wind Farm at Minnesota in USA.

However, the company has not disclosed the financial details of the project. Construction on the site has already begun and the wind farm is expected to be in commercial operation in the first quarter of 2010.
