
Baosteel and POSCO held symposium on global steel dynamics

Thursday, 19 Nov, 2009

Baosteel Economic Management Research Institute held symposium with coming POSRI delegation led by President Mr Joon Han Kim, discussing on global economy, steel industry development, iron ore demand and pricing in the next 5 years.

POSRI, with great fame in global steel industry was established in 1994 and committed itself in macroeconomics, steel industry and overseas regional development research. In the meeting, both sides also elaborated on planning, corporate environment management, enterprise performance assessment, etc. It was common view that enhanced communication and collaboration on establishing and optimizing open research and learning platform to bolster strategic decision and cooperation should be sustained between Baosteel and POSCO.
