## Taiwan steel wire rod price improves

*Thursday, 19 Nov, 2009*

It is reported that Taiwanese Al killed steel wire rod market is more prosperous. Meanwhile, Rimmed steel wire rod price is soaring in line with higher Al killed steel wire rod price.

The Rimmed wire rod market was sluggish before but it remains optimistic because one part of Rimmed wire rod can replace Al-killed wire rod.

Even though the demand is not heavy, the material is insufficient and therefore the price will be increasing further.
