## **Jinan Steel provides quality plates for Australian Bisalloy**

*Wednesday, 17 Mar, 2010*

It is reported that Jinan Steel, under Shandong Steel Group, lately shipped 1700 tonnes of quality steel plates to Australian Bisalloy Steels.

As per report, after the deal, Jinan Steel will be the first steelmaker in China which wins the acceptance of Australian buyers in this product. Though China is one of the important steel exporters around the world, the country still has a long way to go in improving the quality of steel products. Jinan Steel, one of China skilled medium plates producers is able to produce quality steel plates in batches.

Bisalloy, the only manufacturer of high-tensile and abrasion-resistant quenched and tempered steel plate in Australia, fixed strict requirement on the materials and placed the order to Jinan Steel. The order is considered as an experimental one, which means, there will be more and larger orders will come from Bisalloy to Jinan Steel in future, if the quality of the product meets the buyer's requirement.
