
Uralmashzavod to supply equipment to Lebedinskiy

Saturday, 28 Apr, 2007

It is reported that Uralmashzavod has recently signed two agreements with Limos M, a leasing company, for the supply of 310 tons of equipment to Russia's leading iron ore producer Lebedinskiy Ore Mining and Processing Enterprise

As per report the shipment is to include a 7.5 meter pelletizer and about 46 calcining trolleys, to be delivered within 2007

The spokesperson for Governor of Sverdlovsk Region said this is going to be the second pelletizer to be supplied to Lebedinskiy Ore Mining and Processing Enterprise. The first one was shipped to the company in January 2007. The enterprise has been buying new pieces of equipment within the framework of their upgrading and renovation program.
