
Yodogawa to supply galvanized steel to Russia

Thursday, 25 Oct, 2007

FIS reported that technical seminar Zinc coated and painted roll made in Japan, new kinds of products was recently held in Novosibirsk.

After the seminar Rusteel jointly with representatives of Yodogawa Steel Works visited a number of enterprises processing zinc coated steel, which made it possible to discuss technical issues in detail locally.

During the meetings the parties achieved preliminary agreements on the supply of zinc coated steel made in Japan to the Siberian region.
