
TATA Steel to set up coating plant at Gopalpur SEZ

Sunday, 06 Jan, 2008

TATA Steel has announced setting up of up a galvanizing and color coating line with a capacity of 150,000 tonnes at an investment of INR 250 crore at the special economic zone proposed by TATA Steel and notified by the Union government at Gopalpur.

Mr B Muthuraman MD of TATA Steel told media that “It would be a multi product SEZ and as a first step, TATA Steel had decided to set up the galvanizing line. TATA Steel was looking to rope in partners to develop the infrastructure for the project.”

He said “We are looking for partners who will promote infrastructure within the SEZ. It will be a multi product SEZ, and the project should take about 24 months to be implemented.”
