
Centravis launches new pipe mill

Thursday, 31 Jan, 2008

Ukrainian Journal reported that Centravis Ltd International Holding has launched a new pipe production line in January by investing USD 15 million.

Centravis said that the installation of the new line is a part of a long term program on the development of production base of Centravis Production Ukraine, which includes technical upgrading and increasing the quality of servicing.

Centravis was established on the basis of Nikopol Stainless Pipe Plant in Dnipropetrovsk region, UVIS Ltd manufacturing and commercial group, Ukraine's major stainless steel pipe producer, in January
