
Ferrexpo increase iron ore resource at GPL by 127%

Friday, 06 Jun, 2008

Reuters reported that Ukrainian iron ore producer Ferrexpo has boosted the resource at its GPL mine by 127% by finding more ore at deeper levels.

The reported added that the measured, indicated and inferred resource at the Gorishne-Plavninskoye Lavrikovskoye mine have increased to 3.704 billion tonnes from 1.629 billion tonnes.
