
Inprom launches automatic cage welding machine

Wednesday, 11 Jun, 2008

Inprom announced that it has launched high performance automatic cage welding machines at the company's steel service centers in Moscow, Nizhny Novgorod, Ryazan and Belgorod.

The equipment, made by leading European producers, is capable of assembling helical cages of different configurations up to world standards.

Earlier this year cage assembling machines were launched at the company's branches in Volgograd, Voronezh and Orenburg. This year Inprom plans to install the equipment at its branches in Bryansk, Kaluga, Ulyanovsk, Tula, Perm, Saratov and St Petersburg.
