## **Liugang No 2 converter put into production**

*Friday, 04 Jul, 2008*

It is reported that Guangxi Liuzhou Iron and Steel Group 150 tonnes converter No 2 furnace formally put into production.

As per report, general manager and chief engineer of Liuzhou Iron and Steel Group and some other leaders attended the commissioning ceremony.

The No.2 converter is another important engineering project after its No 1 converter. The No.3 converter is expected to be put into operation in mid August 2008.
