
TATA Motors doing all possible to roll out Nano as per plan

Friday, 05 Sep, 2008

It is reported that despite problems at Singur TATA Motors is doing everything possible to launch INR one lakh car Nano as per schedule.

Mr Ratan Tata chairman of TATA Group at the 48th SIAM Annual Convention 2008 said that "Obviously, we are a company which wants to launch Nano as planned. We will try to do everything possible to launch Nano as planned."

He added that it is however not clear if the first lot of Nano would roll out from Singur or an alternate location, plans for which are under consideration of TATA Motors.

Asked if customers would be able to buy Nano by October, Mr Tata said that "The question needs to be asked not to me but to others."
