
Major construction contract signed for Tameer Towers in UAE

Wednesday, 03 Sep, 2008

MENAFN Press reported that Tameer & Sorouh finalized an agreement with a JV of Al Habtoor Engineering and Murray & Roberts and Al Rajhi Projects to construct the landmark Tameer Towers project in Abu Dhabi for a cost of AED 6 billion bringing the total cost of the project to AED 8 billion.

This announcement represents the accomplishment of a major milestone in the Tameer Towers project a JV between Tameer Holding Investment LLC and Sorouh Real Estate PJSC.

The iconic Tameer Towers was launched in October 2007 and has since been considered one of Abu Dhabi's landmark developments. Its simple yet creative design has made it a favorite destination for investors and end users alike.

The construction partners will join the Tameer and Sorouh JV in an alliance that will include the architect Gensler from London along with the structural engineer Mr Thornton Tomasetti, the mechanical engineer Mr Hilson Moran and the facade engineer Mr Buro Happold in addition to the project manager Hill International and the construction manager Mr Bureau Veritas
