
Abhijeet Group unveils expansion plans for WB

Thursday, 11 Sep, 2008

It is reported that Abhijeet Group is planning to enhance its presence in West Bengal by setting up Greenfield projects as well as by increasing the capacity of the group's existing ferroalloy plant in Durgapur.

The Greenfield projects will include a 2 million tonnes per annum capacity integrated steel plant along with a 1,200 MW coal based thermal power plant in Burdwan district and a 4 million tonnes per annum ferroalloy plant along with a 200 MW power plant in East Midnapore district.

As per report, the expansion plan of the existing ferroalloy unit at Durgapur will be to increase the capacity from the present 38,850 tonnes per annum to 60,000 tonnes per annum and setting up of a captive power plant comprising a 25 MW coal based plant and 8 MW rice husk based plant.
