
Suzlon Denmark arm bags major order

Friday, 12 Sep, 2008

Suzlon Energy has announced that Suzlon Energy AS, Denmark, the wholly owned subsidiary of the company secured a major contract with Martifer for the delivery of 29 S88 MW to 2.1 MW turbines totaling a capacity of 60.9 MW to projects in Romania.

This order represents Suzlon first wind turbine order in Romania and is a major addition to the company expanding global footprint.

In addition, Suzlon and Martifer also signed a contract for wind power development in Portugal supplying nine S88 turbines between the Baiao and Vila Franca de Xira wind farms for a total 18.9 MW of capacity.
