
Milwaukee steel wire company to open a new factory in Wuhu

Saturday, 20 Sep, 2008

It is reported that Milwaukee Wire Products will open a new factory in Wuhu in Anhui to supply the automotive industry engineering components and accessories.

It is a new set with function of production, warehousing and distribution, and the name is changed to Charter Automotive. It is the first time for Milwaukee come into China.

Mr John Mellowes chairman & CEO of Charter Manufacturing Company said that "We are pleased to be able to better serve our customers throughout Asia with the opening of this new facility in China."

Mr Mellowes said that "The China facility will allow us to support the rapidly expanding Chinese automotive industry and the growing needs of our global customer base."
