## **Kremikovtzi workers block Sofia over delayed salaries**

*Tuesday, 11 Nov, 2008*

Sofia Photo Agency reported that the massive protests of the Kremikovtzi workers which blocked Bulgaria's capital two weeks ago continued on Monday over the delayed August and September salaries.

As per report, over 2000 workers of Kremikovtzi blocked part of the downtown of the capital Sofia on Monday continuing their protests over the future of the troubled plant.

The main focus of the workers' protests this time is the fact that they had not received their August and September salaries by Friday, November 7, as the Ministry of Economy had promised them.

Mr Petar Dimitrov Bulgaria's economy minister, who had made a pledge that his Ministry was going to assist the plant with the payment of the delayed salaries, explained this promise could not be delivered upon because of the ruling of the Sofia Appellate Court that the Ministry's syndic in Kremikovtzi had not been appointed in accordance with the legitimate procedure.
