## **Taishan Steel introduces 420 stainless steel products**

*Tuesday, 18 Nov, 2008*

It is reported that China' Taishan Steel succeeds to introduce stainless steel type 420 in October 2008.

Taishan Steel will join with the few stainless steel producers in domestic market in China.

It has already developed a successful stainless steel type 430, which is low nickel ferritic stainless steel with a nice performance in general or local corrosion resistance.
