
First made in Vietnam containers to be exported to UAE

Tuesday, 25 Nov, 2008

Vietnam News Agency reported that the first batch of 250 40' HC containers produced by the Vinashin TGC Container Joint Stock Company will be shipped to the United Arab Emirates.

To this effect, a MoU was signed between representatives of VTC and the United Arab Shipping Company on November 20th 2008.

The export of the first made in Vietnam containers is considered a great landmark in the history of the national mechanical engineering industry. It opens a new opportunity for the Vietnamese container production industry to enter the international market.
