## **Xilin Steel produces 0.23 million tonnes of pig Iron in Q3**

*Friday, 21 Nov, 2008*

It is reported that iron making main plant of Northeast China based Xilin Iron & Steel Group has churned out about 0.23 million tonnes of pig iron in third quarter, 3234.48 tonnes over its Q3 targets. And its 450 cubic meter furnace eyes comprehensive coke ratio reaching 508 kilogram per tonne.

As per report, the target is made to cope with serious market competition against the backdrop of economic crisis, learned from the plant.

Located in Heilongjiang, Xilin Group is a complex steelmaker whose total asset is posted at CNY 4.79 billion.
