## **Rak Steel wins CARES award**

*Sunday, 15 Feb, 2009*

It is reported that Rak Steel has received the highly esteemed CARES Certificate of Approval. The Certification Authority for Reinforcing Steel is an impressive accreditation that is recognized all over the world.

The certificate gives RAK Steel the stamp of approval as operating a high quality system that complies with CARES requirements and schedules.

RAK Steel is the second largest producer of steel rebars in the UAE and already holds a certificate from Intertek Sweden for such a high standard of quality management systems. They can now endorse their products with the CARES mark.

Rak Steel said that it see this award as an important achievement and a great opportunity to expand their market, assuring future customers of a first class, high quality product.
