
Production pruning -40% cut in coke output in March - Hebei CCIA

Wednesday, 11 Mar, 2009

According to the meeting held on March 6th in Shijiazhuang, Hebei province, in order to ensure the sound and smooth economic development in the province, Hebei Coke and Chemical Industry Association has put forward some guidelines which suggested cutting 30% to 40% production capacity in March.

Due to the coke prices drops at present, and the overseas price is lower than that at home market, Hebei CCIA decided to import coking coal, some concerned departments will expand their cooperative work as soon as possible.
