
BMZ issues 4 months production results

Wednesday, 13 May, 2009

Byelorussian Iron and Steel Works has issued its production results for the first four months of 2009.

Accordingly, during the given period the mill recorded a 4.3% increase in its crude steel production to 861,587 tonne and a 5.5% rise in its rolled steel production to 713,764 tonne both compared with the same period last year. Meanwhile, BMZ's output of steel pipes decreased by 1% YoY to 13,197 tonne.

Byelorussian Iron and Steel Work's exports for January to April 2009 amounted to a value of USD 284,763 down by 49.6% YoY.
