## **Pangang eying Southwest auto steel market**

*Friday, 05 Jun, 2009*

It is reported that Pangang has recently sent another batch of P560L auto crossbeam steel products to home automobile manufacturing enterprises. As per the surveyed statistics in its production and marketing system, the total sales amount of steel products in the steel mill arrived at 0.2 million tonnes during January to April this year, including a large amount has been put into Southwest auto steel market.

Pangang has adjusted the policy to find the potential customers in Sichuan, Chongqing, Yunnan and Guizhou provinces etc since the government put forward the auto industry adjustment and revitalization plan Feb this year. It has sent the P560L crossbeam steel products and SAPH400 wheel steel products in total for 0.2 million tonnes to Chengdu Wangpai, Beijing Foton and SGMW etc.
