
ISSF launches website on stainless steel street furniture

Tuesday, 23 Jun, 2009

International Stainless Steel Forum has launched a website on stainless steel street furniture with ideas and examples from all over the world for urban planners and architects to get ideas on how to use this material.

The following areas are covered:

1. Street seating
2. Street fence
3. Street lighting
4. Street furniture for traffic
5. Street art
6. Other street furniture
